

# Job Vacancy

## AutoCAD SIP Timber Frame Designer

**Location:** Hereford

**Hours of Work:** 40 hours per week, Monday to Friday

**Salary:** Competitive + Bonus Scheme

Glosford SIPS, part of the Keystone and Wyckham Blackwell Group of companies is seeking a new office-based **AutoCAD SIP Timber Frame Designer** to join an existing successful team based at their Manufacturing and Design Facility in Hereford.

### Overall purpose of the job:

Glosford Timber Solutions Ltd design, manufacture and install Kingspan TEK, SIP (timber frame) buildings in the private residential and commercial markets. Using Mitek Woodengine software the purpose of the role is to produce all the required Cutting and Installation drawing information from Architects and Clients drawings provided.

The job holder will play an integral part in all aspects of the project working with the Design Manager, Project Manager and Technical Manager and any external professional bodies associated with the Contract. This will involve a high level of Customer/Architect liaison.

### Key Responsibilities:

- Attend Project Handover meeting with Project Manager.
- Meet customer expectations at all stages of the process.
- Manage variations that occur during design.
- Ensure all the designs produced are in line with the Architects and customer requirements.
- Issue on time the required cutting and processing information to the works.

### Knowledge and Experience Requirements:

- A proven track record within a similar manufacturing or construction company.
- A good overall knowledge of Construction and all relevant Building Codes of Practice.
- Excellent verbal and written communication skills.
- Relevant Computer skills and experience with CAD design drawings.
- Excellent organisational skills and ability to meet deadlines working with multiple projects.
- Ability to work on own initiative and part of a team.
- Have a logical, analytical and creative approach to problem solving.
